BOBMAN[®]

MADE BY JYDELAND

LIVESTOCK
EQUIPMENT

MINIMIZE TREATMENT COSTS,
reduce lost yield and maximize returns

INCREASE MILK PRODUCTION & farming efficiency

KEEP CELL COUNTS LOW
& reduce risk of mastitis

4-IN-1
Clean, sweep, bed & disinfect in one pass!

OPTIMIZE
cow comfort, cleanliness and udder health

Produce milk of the **HIGHEST POSSIBLE STANDARD**

Safer, healthier and comfortable environment for your livestock

PERFECT
for barns with robotic milking system

REDUCE LABOR COSTS
by reducing the time taken to clean out the stalls and apply bedding

WIDE RANGE
of models and accessories available

RELIABLE AND DURABLE livestock equipment for professional use

COST-EFFECTIVE
use of different bedding materials

“

Making it possible to maintain stalls to the highest degree!

BOBMAN machines have been specifically created in order to promote a safer, healthier and comfortable environment for your livestock, therefore your cattle will be able to produce milk of the highest possible standard.

The BOBMAN livestock equipment make regular cleaning and maintenance work easy. The BOBMAN bedding dispenser and grooming machine brushes the lying area and spreads fresh bedding material in one pass. Regularly removing infectious bacteria whilst replenishing new bedding is vital for keeping cell counts low. Performing these two operations together will result in quality milk & increased volume all whilst reducing the time taken to clean out the cubicles and increasing farming efficiency.

BOBMAN machines remove urine, discharges, dirty bedding and milk secretions. The brilliance of the BOBMAN does not end there, as well as removing the above from your stalls to create a cleaner area; the old bedding is then replaced with new bedding to produce a dry area ready for your cattle.

With a wide range of models available, you're sure to find a suitable machine to meet all your needs - the BOBMAN bedding spreader is suitable for dairy farms of any size and will help to increase the general cleanliness of the living area for your cattle.

GALVANIZED MODEL
AVAILABLE!

SUPER

– a quick and effective bedding spreader

- ▶ Clean, sweep, bed & disinfect in 1 pass!
- ▶ Perfect for applying chopped straw, sawdust, wood shavings, waste paper, lime or disinfection powder
- ▶ Recommended for up to 150 cubicle spaces approximately
- ▶ Compact & maneuverable
- ▶ Fixed Hopper
- ▶ Easy to operate
- ▶ Disinfection powder dispenser option available
- ▶ BOBMAN Super is built with larger wheels than its predecessors
 - This feature provides higher ground clearance and advanced ability to overcome edges and rough surfaces in the barn.

FRONTLOAD

– a compact & versatile bedding spreader

- ▶ Clean, sweep, bed & disinfect in 1 pass!
- ▶ Perfect for applying chopped straw, sawdust, wood shavings, waste paper, lime or disinfection powder
- ▶ Self-loading in a front hopper
- ▶ The ideal solution in medium to large herds
- ▶ Compact & versatile
- ▶ Disinfection powder dispenser option available

SELFLOAD

– an efficient and time-saving self-loading bedding spreader for larger herds

- ▶ Perfect for larger herds 200 plus cubicles
- ▶ Perfect for applying chopped straw, sawdust, wood shavings, waste paper, lime or disinfection powder
- ▶ Hydraulic self-loading hopper
- ▶ 1 m³ hopper capacity
- ▶ Single Man operation
 - Clean, sweep, bed & disinfect in 1 pass
- ▶ Compact & easy to maneuver
- ▶ Fully hydraulic manure scraper & rotary brush
- ▶ Disinfection powder dispenser available
- ▶ Equipped with front work LED light to provide better visibility in the early mornings or late evenings

Since they started using this piece of equipment, Marcus notes improved efficiency.

Further, he observes cow comfort and milk quality improvements.

“There are no abrasions on the cows’ feet and legs,” he adds.

“We noticed we had less mastitis shortly after we got it.”

“Vogel Dairy demonstrates management is key with three bedding types”, Progressive Dairy, Published on 21 September 2019.

“
Not just a product,
but a solution!”

PROMAX

– compact, powerful and easy to operate tool carrier

- ▶ Switch the tools in under a minute
- ▶ Easy to navigate through tight areas
- ▶ Complete the work from the operator's seat and in one run!
- ▶ BOBMAN Promax is equipped with larger wheels than its predecessors. This feature provides higher ground clearance and advanced ability to overcome edges and rough surfaces in the barn.
- ▶ Equipped with front work LED light to provide better visibility in the early mornings or late evenings

Implements & attachments

- ▶ Feedturner for pushing up & blending the feed
 - Improve feed efficiency and reduce labour costs
 - Reduce leftovers and feed selection
- ▶ Double brush for easy cleaning & sweeping of feeding area
- ▶ Manure scraper, side-brush & disinfection powder dispenser
 - The favorite choice of the dairy farmers using only lime or powder disinfectant.
 - Increases farming efficiency as it reduces the time taken to clean out the stalls or the milking cubicles of your livestock.

MULTILOAD

– a multifunctional bedding spreader equipped with vertical auger and conveyor belt

- ▶ Hydraulic self-loading hopper option available
- ▶ 0,8 m³ hopper capacity
- ▶ The ideal solution in medium to large herds
- ▶ Can be used for applying different bedding materials
- ▶ Manure scraper available
- ▶ Can also be used as a mini mixing feeder

POWERLEAD

– Perfect for applying separated manure solids

- ▶ Can be equipped with a hydraulic self-loading spreader-box
- ▶ The volume of the spreader-box is 1,1 m³
- ▶ The ideal solution for medium or larger herds
- ▶ Can be used to add different bedding materials
- ▶ Can be equipped with a manure scraper
- ▶ Can be used as a small feeding-mixer
